ClearWorld, LLC is an alternative energy system solution provider to design and retrofit existing inefficient street lighting that reduces utility operating and maintenance costs in the pursuit of grid independence. ClearWorld is focused on providing off-grid/on-grid solar LED lighting solutions for roadways, sidewalks, apartment and condominium complexes, retail and corporate parking lots, university campuses, government institutions, military installations, and more. Our patent-pending system is modeled as a solar-powered retrofit for both functioning and non-functioning poles to replace or supplement the conventional power supply from the grid. For more info call us at 855-786-5331
