If you're looking for regenerative medicine near Phoenix, you may be concerned about the possibility of having to undergo painful surgery or invasive procedure to get relief from your chronic pain. If so, we have good news: surgery isn't the only option. At QC Kinetix (Banner Estrella), we provide alternative measures to help you deal with chronic pain without surgery or invasive procedures. We offer our services to locals who need some extra help treating knee, elbow, hip, wrist, shoulder, and other joint and sports injuries. Our biologic therapies are a natural way to treat your pain without invasive surgeries like joint replacements. After all, who wants to go through a painful procedure only to be left in worse shape than before? In just a few simple sessions, you'll be on your way back to the active lifestyle you know and love. That's right—you'll get relief from chronic pain without having to undergo the hassle of a knee replacement or hip surgery!
