Do you require sports injury treatment? Looking for **sports medicine near me**? **QC Kinetix (Lubbock)** can help you find a remedy absolutely free and, with your permission, recommend a solution to reduce your injury without requiring surgery. With your permission, we'll then also be able to help you avoid surgery so that you can return to your activities more quickly. At QC Kinetix (Lubbock), you can choose to opt for pain relief treatments in place of requiring surgery. We are the best place to receive pain relief, which is why we provide options instead of surgery to patients. At our medical facility, we present non-invasive medical treatments for joint discomfort in the Lubbock area. We believe in a regenerative process for these treatments, such as hip replacement, knee repair, shoulder operation, or elbow injury treatment, to be advantageous and are pleased to provide our expertise. We invite you to schedule an appointment to go over what our treatments entail.
