Non-surgical regeneration treatments for sports-related pain are an important new method in the treatment of musculoskeletal injuries. These treatments have been found to reduce pain and restore function without requiring surgical procedures and with minimal to no downtime. QC Kinetix (Superior) provides sports medicine in Louisville for discomfort linked with sports injuries to help you heal faster and with less pain. Biological therapy, for example, can help mend damaged tissues and promote healing. Sports injuries, which cause pain and inflammation, can be quite debilitating. We have helped many patients improve their lives by helping them reduce their chronic pain using advanced non-invasive regenerative therapies that have been proven safe and effective for years by medical providers around the world. Our goal is to get you back on track toward living a healthy lifestyle without having to undergo a surgical procedure or any other invasive procedures. We offer comprehensive evaluation & diagnosis services.

Business Services: Non-surgical regenerative treatments for pain associated with sports injuries, arthritis and other musculoskeletal conditions
